Deskripsi Singkat MK	The course introduces the students to the steps of how to write a research proposal. In the first of half of the semester students learn to select a topic for their research, limit the scope of the study, write the rationale, formulate the research questions and the objectives of the study, and define the specific terms used in the study. During the second half of the semester, they will learn to write a review of related literature for the proposed topic which covers theoretical framework and state of the arts of the topic chosen. Classroom activities will be on the format of discussion, presentation in class seminar, lecturing, and full thesis proposal writing project.
