Theoretical topics covered include categorization construal acquisition of concepts metaphor blending metonymy compositionality mental spaces lexical semantic change. Various semantic domains will be examined in connection with these topics, e.g. color terms, kinship, dimensional terms, verb meaning but two domains will be treated in depth from various perspectives: the semantics of everyday concepts, and the semantics of space and motion. For pragmatics theoretical frameworks are speech acts,implicature, presupposition, relevant theory, cooperative principles, politeness principles, references, deixies, contexts and co-texts. The final project is documenting the short functional teks are found in the public areas to interpret the communication functions. |                                                                                                                                                                                                                                              |                 |     |           |                           |                |       |       |        |        |    |    |    |        |    |   |  |        |  |  |   |   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |        |   |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |        |  |   |   |  |  |  |  |  |  |  |  |  |  |  |  |  |        |  |  |  |   |   |   |   |   |   |   |   |   |   |   |   |   |
