Short Course Description	<p>Marketing today requires companies to change mechanisms from managing product portfolios to managing customer portfolios. The company will collect a database about individual customers so that the company can better understand customers and provide personalized offers and messages. Companies and marketers need to carry out holistic marketing, where the development, design and implementation of marketing programs, processes and activities take into account the breadth and interdependence of the current marketing environment through the key dimensions of holistic marketing, namely: Internal Marketing, Integrated Marketing, Relationship Marketing and Marketing Performance. Through studying the Marketing Management course, students will gain insight into modern marketing programs that are suitable for the 21st century and put them into practice as a form of understanding of Marketing Science. Today's marketing requires companies to change the mechanism from managing product portfolios to managing customer portfolios. The company will collect a database of individual customers so that the company can better understand customers and provide offers and messages in person. Companies and marketers need to run holistic marketing, where development, design, and implementation of marketing programs, processes and activities that see the breadth and interdependence of the current marketing environment through key dimensions of holistic marketing, namely: Internal Marketing, Integrated Marketing, Relationship Marketing, and Marketing Performance. Through learning Marketing Management courses, students will gain insight into modern marketing programs that are in line with the 21st century and practice it as a form of understanding about Marketing Science.</p> <p>Today's marketing requires companies to change the mechanism from managing product portfolios to managing customer portfolios. 		20%

**Notes**

- Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
- Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- Forms of assessment:** test and non-test.
- Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- TM=Face to face, PT=Structured assignments, BM=Independent study.
