SEMESTER LEARNING PLAN

Courses	CODE	Course Family	Credit Weight			SEMESTER	Compilation Date																																																																																																				
Qualitative Economic Research Methods	8722002111	Compulsory Study Program Subjects	T=1	P=1	ECTS=3.18	6	January 25, 2024																																																																																																				
AUTHORIZATION	SP Developer		Course Cluster Coordinator			Study Program Coordinator																																																																																																					
	Hendry Cahyono, S.E., M.E.		Hendry Cahyono, S.E., M.E.			Dr. Tony Seno Aji, S.E., M.E.																																																																																																					
Learning model	Project Based Learning																																																																																																										
Program Learning Outcomes (PLO)	PLO study program that is charged to the course																																																																																																										
	Program Objectives (PO)																																																																																																										
	PO - 1	Students are able to analyze data using qualitative research methods;																																																																																																									
	PO - 2	Students are able to prepare qualitative research proposals																																																																																																									
	PO - 3	Students are able to produce qualitative research																																																																																																									
	PO - 4	Students are able to be responsible for the qualitative research work that has been created																																																																																																									
	PLO-PO Matrix																																																																																																										
		<table border="1" style="margin-left: 20px;"> <tr><td>P.O</td></tr> <tr><td>PO-1</td></tr> <tr><td>PO-2</td></tr> <tr><td>PO-3</td></tr> <tr><td>PO-4</td></tr> </table>						P.O	PO-1	PO-2	PO-3	PO-4

Week-	Final abilities of each learning stage (Sub-PO)	Evaluation		Help Learning, Learning methods, Student Assignments, [Estimated time]		Learning materials [References]	Assessment Weight (%)
		Indicator	Criteria & Form	Offline (offline)	Online (online)		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1	Understand the qualitative approach to research and its distinctive characteristics that differentiate it from quantitative research	<ol style="list-style-type: none"> 1.Able to understand qualitative approaches in research 2.Able to understand the typical characteristics of a qualitative approach 3.Able to understand the difference between qualitative and quantitative approaches 	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Participatory Activities</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: qualitative approaches in research</p> <p>References: <i>Creswell, John W. Qualitative Inquiry and Research Design</i></p>	5%
2	Know and understand the form of integration of qualitative approaches in research in the field of Economics	<ol style="list-style-type: none"> 1.Able to understand the form of integration of qualitative approaches in research in the field of Economics 2.Able to understand the form of integration of qualitative approaches in research in the field of Economics 	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Test</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: understanding the form of integration of a qualitative approach.</p> <p>References: <i>Creswell, John W. Qualitative Inquiry and Research Design</i></p>	5%
3	Understand the concept and how to develop assumptions in qualitative research	<ol style="list-style-type: none"> 1.Able to understand concepts in qualitative research 2.Able to understand how to develop assumptions in qualitative research 	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Practice / Performance</p>	Interactive discussions and lectures 3 X 50		<p>Material: Development of Assumptions in Qualitative Research</p> <p>References: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i></p>	5%
4	Understand data sources and research subjects in qualitative research as well as issues related to them such as cultural bias, gender bias, researcher bias, etc.	<ol style="list-style-type: none"> 1.Able to understand data sources 2.Able to understand research subjects in qualitative research 3.Able to understand related issues 	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Practice / Performance</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: 1. Data Sources 2. Research Subjects 3. Related Issues</p> <p>Literature: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i></p>	5%
5	Understand and implement data collection methods in a qualitative approach such as observation, interviews and documentation studies	<ol style="list-style-type: none"> 1.Able to understand data collection methods in a qualitative approach 2.Able to carry out observations, interviews and documentation studies 	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Practice / Performance</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: data collection methods in a qualitative approach</p> <p>References: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i></p>	5%

6	Know and understand the form of data validity in qualitative research which includes triangulation of data sources, triangulation of data collection methods, and triangulation of data obtained	1. Able to understand the validity of data in qualitative research 2. Able to understand triangulation of data sources, triangulation of data collection methods, and triangulation of data obtained	Criteria: According to scoring guidelines Form of Assessment : Practice / Performance	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	Material: forms of data validity in qualitative research Reference: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i> Material: forms of data validity in qualitative research References: <i>Cahyono, Hendry. 2019. Participatory Development Planning: Theory and Description. Coffee table. Sidoarjo</i>	5%
7	Know and carry out data analysis methods in qualitative research, such as data reduction, data condensation, and data display	1. Able to know how to analyze data in qualitative research 2. Able to perform data reduction, data condensation, and data display	Criteria: According to scoring guidelines Form of Assessment : Portfolio Assessment	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	Material: forms of data validity in qualitative research Reference: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i> Material: forms of data validity in qualitative research References: <i>Cahyono, Hendry. 2019. Participatory Development Planning: Theory and Description. Coffee table. Sidoarjo</i> Material: forms of data validity in qualitative research References: <i>Rita, Fenny Fiantika. Wasil, Mohammad, et.al. 2022. Qualitative Research Methods. PT. GLOBAL EXECUTIVE TECHNOLOGY. Padang, West Sumatra</i>	5%
8	UTS	Accurate answer analysis results	Criteria: According to scoring guidelines Form of Assessment : Project Results Assessment / Product Assessment	UTS 3 X 50			50%
9	Understand narrative research design	Able to understand narrative research design	Criteria: According to scoring guidelines Form of Assessment : Practice / Performance	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	Material: narrative research design Bibliography: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i>	0%

10	Understand case study research design	Be able to understand case study research design	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Portfolio Assessment</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: case study research design</p> <p>References: Bungin, MB 2014. <i>Qualitative Research: Second Edition.</i> Kencana Publisher: Jakarta.</p> <hr/> <p>Material: case study research design</p> <p>References: Rita, Fenny Fiantika. Wasil, Mohammad, et.al. 2022. <i>Qualitative Research Methods. PT. GLOBAL EXECUTIVE TECHNOLOGY.</i> Padang, West Sumatra</p>	5%
11	Understanding of historical and ethnographic research design	<p>1. Able to understand historical research design\</p> <p>2. Able to understand research design for ethnographic research</p>	<p>Criteria: According to scoring guidelines</p>	Interactive discussions and lectures 3 X 50		<p>Material: Historical and ethnographic research design</p> <p>Reference: Bungin, MB 2014. <i>Qualitative Research: Second Edition.</i> Kencana Publisher: Jakarta.</p>	0%
12	Understand phenomenological research design	Able to understand phenomenological research design	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Project Results Assessment / Product Assessment</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: phenomenological research design</p> <p>Bibliography: Bungin, MB 2014. <i>Qualitative Research: Second Edition.</i> Kencana Publisher: Jakarta.</p>	0%
13	Understand discourse analysis research design	Able to understand discourse analysis research design	<p>Criteria: According to scoring guidelines</p> <p>Form of Assessment : Practice / Performance</p>	Interactive discussions and lectures 3 X 50	Interactive discussions and lectures	<p>Material: discourse analysis research</p> <p>Bibliography: Bungin, MB 2014. <i>Qualitative Research: Second Edition.</i> Kencana Publisher: Jakarta.</p>	5%
14	Understand action research design in the field of Economics	Able to understand action research design in the field of Economics	<p>Criteria: According to scoring guidelines</p>	Interactive discussions and lectures 3 X 50		<p>Material: action research design</p> <p>Reference: Bungin, MB 2014. <i>Qualitative Research: Second Edition.</i> Kencana Publisher: Jakarta.</p>	0%

15	Design and create research proposals with a qualitative approach	Able to design and create research proposals with a qualitative approach	Criteria: According to scoring guidelines Form of Assessment : Participatory Activities	Interactive discussions and lectures 3 X 50		Material: Designing and creating a research proposal using a qualitative approach. Reference: <i>Bungin, MB 2014. Qualitative Research: Second Edition. Kencana Publisher: Jakarta.</i> <hr/> Material: Designing and creating a research proposal using a qualitative approach. Reference: <i>Creswell, John W. Qualitative Inquiry and Research Design</i> <hr/> Material: Designing and creating a research proposal using a qualitative approach Reader: <i>Cahyono, Hendry. 2019. Participatory Development Planning: Theory and Description. Coffee table. Sidoarjo</i> <hr/> Material: Designing and creating a research proposal using a qualitative approach. Reader: <i>Rita, Fenny Fiantika. Wasil, Mohammad, et.al. 2022. Qualitative Research Methods. PT. GLOBAL EXECUTIVE TECHNOLOGY. Padang, West Sumatra</i>	5%
16	UAS	Accurate answer analysis results	Criteria: According to scoring guidelines Form of Assessment : Project Results Assessment / Product Assessment	UAS 3 X 50			25%

Evaluation Percentage Recap: Project Based Learning

No	Evaluation	Percentage
1.	Participatory Activities	10%
2.	Project Results Assessment / Product Assessment	75%
3.	Portfolio Assessment	10%
4.	Practice / Performance	25%
5.	Test	5%
		100%

1. **Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
2. **The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
3. **Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
4. **Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
5. **Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
6. **Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
7. **Forms of assessment:** test and non-test.
8. **Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
9. **Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
10. **Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
11. **The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
12. TM=Face to face, PT=Structured assignments, BM=Independent study.
