Program Learning Outcomes (PLO)	PLO study program which is charged to the course																																																																																																																				
	PLO-8	(PLO 4) Graduates are able to apply information technology in managing financial, marketing and HR data appropriately																																																																																																																			
	PLO-10	(PLO 3) Graduates are able to adapt to the context of the business problems they face well																																																																																																																			
	PLO-14	(PLO 1) Graduates are able to master management theory as a whole																																																																																																																			
	Program Objectives (PO)																																																																																																																				
	PO - 1	C4. Students are able to explain in detail the role and protection of information systems as a basic consideration for managing a business and behaving ethically and responsibly																																																																																																																			
	PO - 2	C4. . Students are able to correctly compare computing and communication resources																																																																																																																			
	PO - 3	A5. Students are able to show tough, collaborative, adaptive, innovative character in making business decisions																																																																																																																			
	PO - 4	P5. Students are able to design a simple database with Microsoft Access according to the case data provided																																																																																																																			
	PLO-PO Matrix

Short Course Description	Management information systems courses provide studies that contain an understanding of the role of information systems in changing global business, electronic business systems (E-Business), computing and communication resources, and information system protection, information system applications, decision support systems, resources in managing information technology as a basis consideration of managing a business properly. Apart from that, this course also helps in making database management easy in business organizations. The learning method used is a combination of direct learning methods, cooperative learning, group discussions, practice and drills which are adapted to each subject at each meeting.

Week-	Final abilities of each learning stage (Sub-PO)	Evaluation		Help Learning, Learning methods, Student Assignments, [Estimated time]		Learning materials [References]	Assessment Weight (%)
		Indicator	Criteria & Form	Offline (offline)	Online (online)		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1	Able to understand the role of information systems in global business	<ol style="list-style-type: none"> 1.explains the role of information systems in changing business and its relationship to globalization 2.Able to explain the importance of information systems through discussion 3.explains information systems, how they work, management, organization and technological components 4.mentions the branches of science used to study information systems & their contribution to understanding information systems 	Criteria: assessment rubric Form of Assessment : Participatory Activities	3 X 50	Cooperative learning Discussion 3 x 50	Material: the role of information systems in global business References: <i>Laudon, Kenneth C., Laudon, Jane P. 2015. Management Information Systems. Salemba Empat Jakarta</i>	3%

2	Able to understand electronic business systems (E-Business)	<ol style="list-style-type: none"> 1.explains the definition of business processes and their relationship with information systems 2.explains how the system serves different management groups 3.explains how systems connect companies to improve the performance of business organizations 4.explains the importance of systems for collaboration, social networking business and the technology used 5.mention the role and function of information systems 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative learning Discussion 3 X 50	<p>Material: electronic business systems (E-Business)</p> <p>Reference: O'Brien. 2014. <i>Management Information Systems 9th Edition</i>. Jakarta : Salemba Empat</p>	3%
3	Able to know and understand Computing and Communication Resources	<ol style="list-style-type: none"> 1.Mention various computer components 2.mentions personal computing devices 3.mention input and output resources 4.explain various computer networking strategies 5.differentiate communication via public telephone systems & networks 6.distinguish between intranets, extranets and the Internet 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative learning Discussion 3 X 50	<p>Material: Computing and Communication Resources</p> <p>Bibliography: Laudon, Kenneth C., Laudon, Jane P. 2015. <i>Management Information Systems</i>. Salemba Empat Jakarta</p>	3%

4	Able to know information system protection	<ol style="list-style-type: none"> 1.explain system vulnerabilities and abuse 2.mentions laws and regulations in the security and control of information systems 3.lists the components of an organizational framework for information system security and control 4.mentions technologies and means to protect information sources through discussion 5.explain the application of ethics in information technology 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative Learning Discussion 3 X 50	<p>Material: information system protection</p> <p>References: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i></p>	3%
5	Able to understand information system applications	<ol style="list-style-type: none"> 1.develop effective information systems 2.explain the processes of the transaction processing system 3.describes organizational information systems developed for business areas and organizational levels 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative learning Discussion 3 X 50	<p>Material: information system applications</p> <p>References: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i></p>	3%
6	Able to understand information system applications	<ol style="list-style-type: none"> 1.exemplifies the marketing, human resources, manufacturing, and financial information system architectures of various types of companies 2.exemplifies executive information system architectures from various types of companies 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative learning Discussion 3 X 50	<p>Material: information system applications</p> <p>Reader: O Brien. 2014. Management Information Systems 9th Edition. Jakarta : Salemba Empat</p>	3%

7	Able to understand decision-making support systems	<ol style="list-style-type: none"> 1. differentiate the types and processes of decision making in a coherent manner 2. explains the importance of information systems supporting decision-making activities 3. explains how business intelligence and business analytics help support decision making 4. explain the role of information systems in helping people working in groups to make efficient decisions 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative Learning Discussion 3 X 50	<p>Material: decision support systems</p> <p>References: <i>Laudon, Kenneth C., Laudon, Jane P. 2015. Management Information Systems. Salemba Empat Jakarta</i></p>	5%
8	MIDDLE SEMESTER EXAMINATION (UTS)	Material Review and Case Studies in Implementing Management Information Systems	<p>Criteria: scoring guidelines</p> <p>Form of Assessment : Test</p>	3 X 50	oral test 3x50	<p>Material: role of information systems in global business, electronic business systems (E-Business), Computing and Communication Resources, information system protection, information system applications, decision support systems</p> <p>References: <i>Laudon, Kenneth C., Laudon, Jane P. 2015 . Management information System . Salemba Empat Jakarta</i></p>	20%
9	Able to understand how resources can help in managing IT	<ol style="list-style-type: none"> 1. mention resources that can help manage IT through discussion 2. mention sources for purchasing software or getting it for free to maintain computer security 3. explain the importance of e-mail 	<p>Criteria: assessment rubric</p> <p>Form of Assessment : Participatory Activities</p>		Cooperative learning discussion 3x50	<p>Material: resources that can help in managing IT</p> <p>References: <i>Laudon, Kenneth C., Laudon, Jane P. 2015. Management Information Systems. Salemba Empat Jakarta</i></p>	4%

10	Able to understand and create databases with Microsoft Access	1.Able to explain database and Microsoft access 2.Able to create database tables independently 3.Able to create database queries independently	Criteria: assessment rubric		Cooperative learning discussion 3x50	Material: database with Microsoft Access Library: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%
11	Able to create database reports	create table functions independently	Criteria: assessment rubric		Information system practices and drills in a company 3 X 50	Material: database report Bibliography: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%
12	Able to create database reports	create and process database queries independently	Criteria: assessment rubric		Practice and drill information systems in a company 3 x 50	Material: database report Bibliography: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%
13	Able to create database reports	operate the relationship independently	Criteria: assessment rubric		Practice and drill information systems in a company 3 x 50	Material: database report Bibliography: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%
14	Able to create database reports	Able to create forms and operate formulas independently	Criteria: assessment rubric		Practice and drill information systems in a company 3 X 50	Material: database report Bibliography: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%
15	Able to create database reports	Able to integrate menus in creating a database independently	Criteria: assessment rubric		Practice and drill information systems in a company 3 X 50	Material: database report Bibliography: <i>Mc Leod, Raymond. 2008. Management Information Systems. Jakarta Salemba Four</i>	4%

16	FINAL SEMESTER EXAMINATION (UAS)	Able to identify, select, and describe information systems in a company	Criteria: assessment rubric Form of Assessment : Test	Identification and Implementation of information systems in a company 3x50	Material: Designing a Business Unit Database Library: McLeod, Raymond. 2008. <i>Management Information Systems.</i> Jakarta Salemba Four Material: Designing a Business Unit Database Library: McLeod, Raymond. 2008. <i>Management Information Systems.</i> Jakarta Salemba Four	30%

Notes

- Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
- Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- Forms of assessment:** test and non-test.
- Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- TM=Face to face, PT=Structured assignments, BM=Independent study.
